

SecureCo Security Consult

Use SecureCo Security Consult Service to assess your environment and bring clarity to what matters most in protecting your valuable data.

Map your security state of play

Why: The new workplace is here and it's more distributed than ever before. With work extending to home and employees embracing the convenience of greater mobility, the security risk to enterprise networks has increased. Staying ahead of issues and effectively managing security risk relies on insights you can trust.

How: SecureCo Security Consult provides expert analysis of your security environment.

Act with confidence, fast

How can CISOs be sure their security program is effectively protecting and supporting business operations today – and when an unforeseen attack occurs tomorrow?

SecureCo Security Consult pinpoints critical areas for improvement and provides a comprehensive recommendation report on how to better orchestrate your security architecture.

In-person, in-depth.

Stay up to date

Why: Compliance isn't set-and-forget. Resilient organisations need surety that their compliance program is geared to perform in today's increasingly complex and rapidly shifting security landscape.

How: Partner with SecureCo to quickly identify, prioritise and mitigate potential weaknesses in your PCI, data and general compliance, and strengthen your security posture.

The challenge

Is my organisation's security, risk and compliance infrastructure equipped to defend against today's threats? Are we investing where it matters most?

SecureCo's solution

Security Consult will help you achieve best-practice across all areas of your security and compliance environment.

Benefits

Custom consultation

On-site, full-day consultation session with deep assessment of your broad security environment and customised recommendations for action.

Reduce risk

Arm your security team with deep insights to improve the efficiency of your security response and compliance program.

Peace of Mind

Gain an immediate understanding of where your organisation sits on the compliance spectrum – and where to prioritise your investment.

Certified provider

SecureCo is a certified Level 1 v3.2 PCI Service Provider.
